ROUTERS GATEWAY SHIPPING L.L.C

Better Routes.
Reliable Movement.

routers-sl.com

ABOUT ROUTERS

Routers provides integrated shipping, freight, transportation and logistics solutions designed to connect businesses with important regional and international markets. Through responsive coordination, flexible routing and customer-focused service. We support importers, exporters, manufacturers, traders and project businesses across sea, air & land.

Our capabilities include NVOCC services, liner agency support, international freight forwarding, feeder services, inland and transit transportation, customs clearance, specialized equipment, project cargo and warehousing.

Our Mission

To provide flexible, coordinated, and cost-effective logistics solutions through strong partnerships, responsive service and responsible cargo management.

Our Vision

To become a trusted regional shipping and logistics gateway connecting customers with reliable international trade routes.

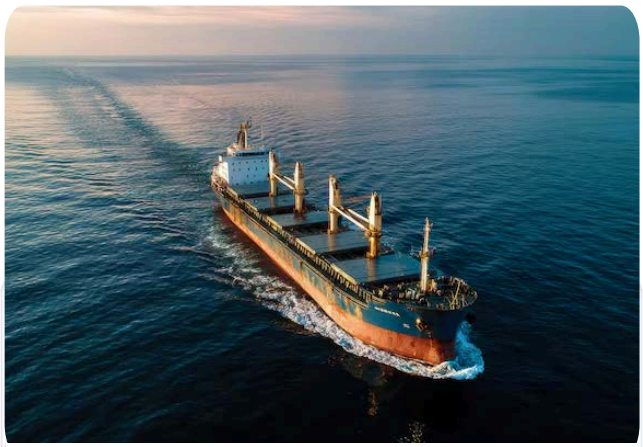

routers

OUR SERVICES

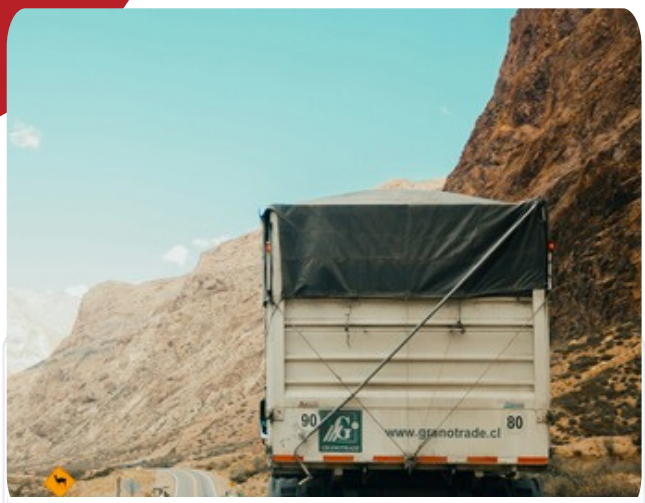

Air Freight

Fast international cargo movement with coordinated flight bookings, documentation, handling, customs support and onward delivery.

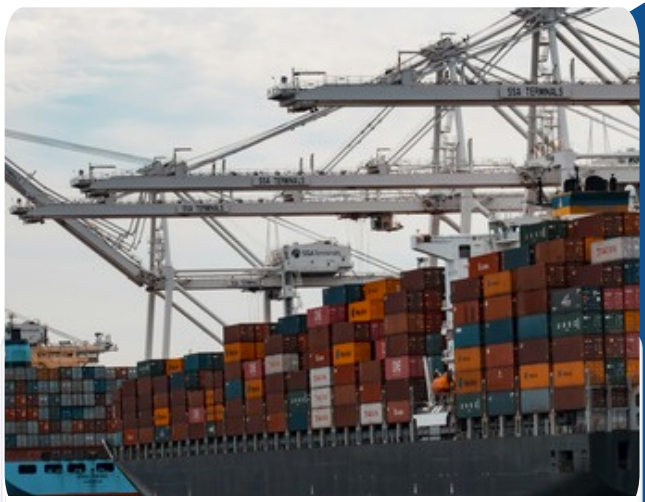

Sea Freight

Efficient ocean shipping for full containers and consolidated cargo, including bookings, documentation and delivery coordination.

Land Transportation

Reliable local and cross-border trucking matched to cargo size, weight, routes, schedules and delivery requirements.

Cross-Trade Shipment

Coordinated shipments between overseas markets, covering freight arrangements, documentation, customs support & cargo handling.

OUR SERVICES

Project Cargo

Specialized planning for oversized machinery, heavy equipment and complex cargo, including routing, permits and transportation.

Warehousing

Secure warehousing with inventory management, packing, labeling, lashing, loading, unloading, container transfers and dispatch coordination.

Customs Clearance & Cargo Support.

Coordinated import, export, and re-export clearance covering documentation, inspections, border formalities, cargo release and delivery.

Special Equipment

Routers arranges specialized equipment for cargo that cannot move through standard containers or vehicles. Solutions includes Reefer containers, ISO tanks, flat racks, open tops, low-bed trailers and other equipment subject to route & availability.

routers

The values behind every ROUTE.

WHY ROUTERS?

Reliability

We work consistently to meet our commitments and keep cargo moving.

Transparency

We communicate clearly about shipment arrangements and progress.

Accountability

We take responsibility for our work and follow through on agreed actions.

Customer Focus

We shape each solution around your business and cargo needs.

Agility

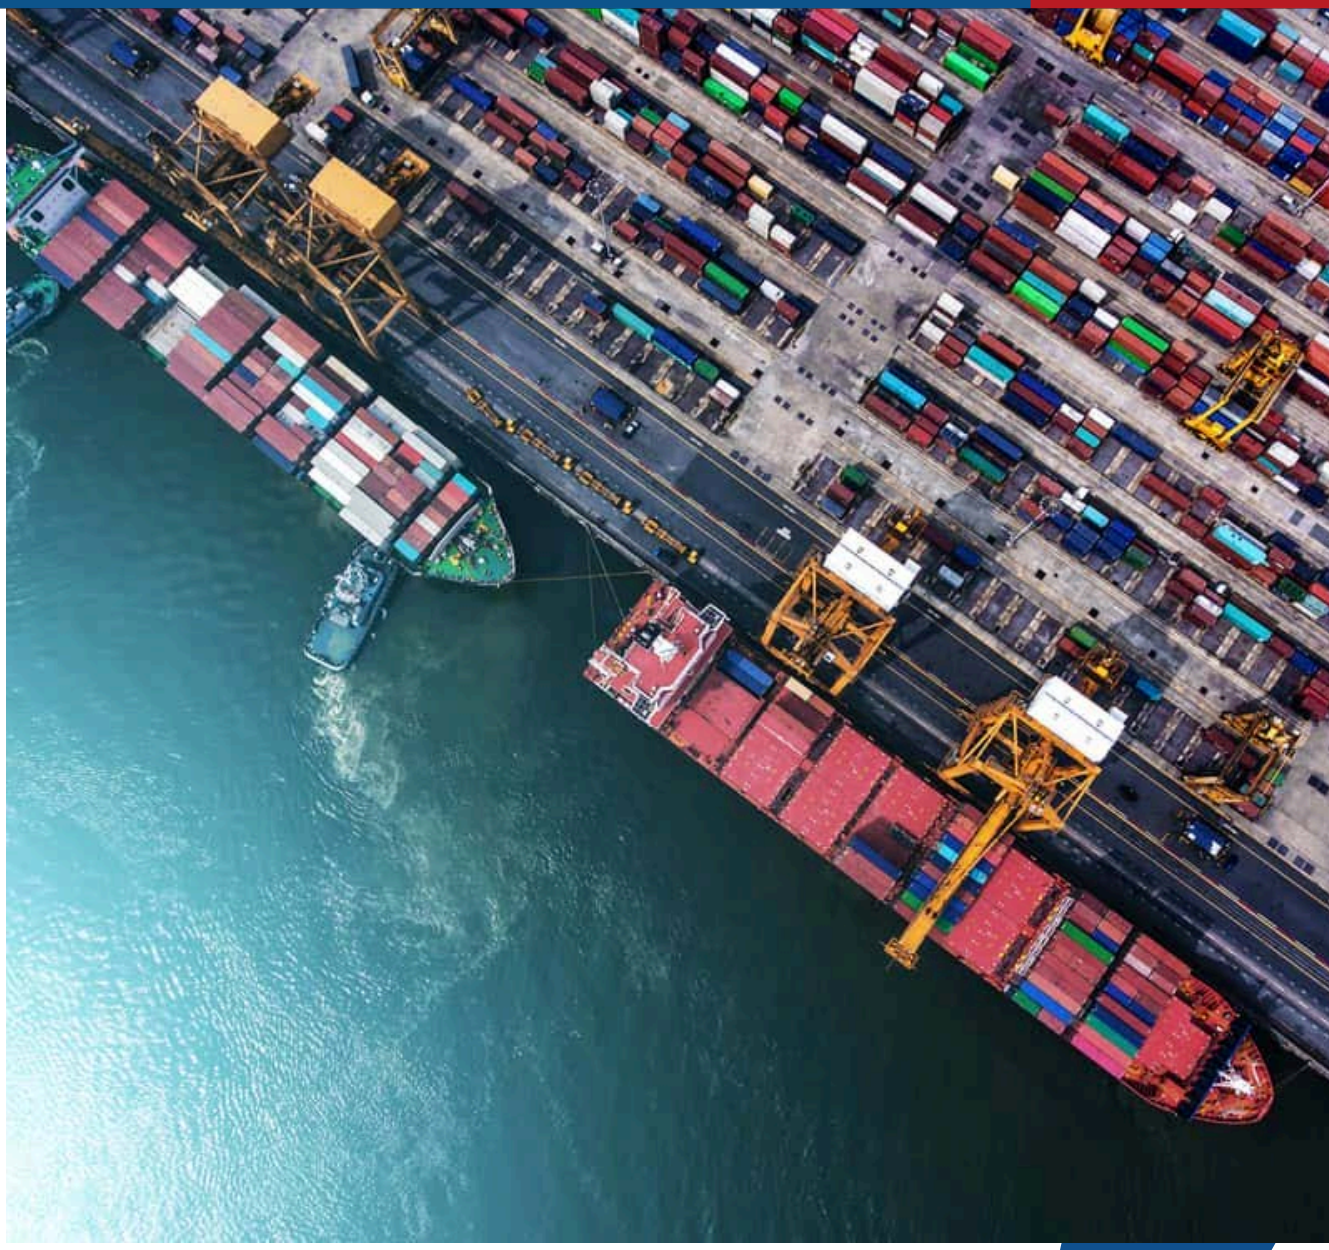

We respond promptly to changing operational requirements.

Integrity

We conduct business with honesty, fairness and professional responsibility.

"We believe that every successful shipment begins with the right route"
